

# Fleet Vehicles

## Flexible Vehicle Solutions for Your Fleet.

Your vehicle needs change from year to year, month to month or with the seasons. That's why FleetShare offers fleet vehicles to meet your short- and long-term needs. Short-term leases run from just two months up to one year, and if your needs change again during that time, you can choose a longer term and the financing package that works with your budget.

With a full range of vehicle makes, models and sizes available—from compact cars and SUVs to passenger vans and specialty vehicles—FleetShare is able to customize a solution to fulfill your exact requirements. These vehicles can supplement your fleet and your motor pool, incorporating the FleetShare technology to these and your current vehicles, helping you meet your organization's business needs.

FleetShare Vehicle Solutions include:

### Vans

- 8, 12 and 15 passenger vans
- Campus shuttle buses
- Cargo vans

### Cars

- Small, mid- and full-size cars

### Trucks

- Pickup trucks
- Small and large SUVs
