

# FleetShare Solutions

## Revolutionize Your Fleet Management Strategy.

FleetShare is a revolutionary commercial vehicle sharing program, offering services that can be tailored to the needs of private businesses, government organizations, colleges and universities, and other public organizations that want to reduce their fleet costs while serving more drivers.

FleetShare empowers you to maximize vehicle usage through vehicle sharing, and enables you to easily incorporate more vehicles into your fleet or motor pool on a short- or long-term basis to meet known seasonal fluctuations or to accommodate new trends. Supplemental fleet vehicles are available in any make, model or size.

With FleetShare, you can:

- Right-size your fleet using real-time data gathered from every fleet vehicle and driver and automatically sent to FleetShare's vehicle management software.
- Monitor and analyze vehicle usage, maintenance and operational needs via FleetShare's up-to-the-minute information.
- Improve transparency, accountability and enforcement of fleet policies with full data on every vehicle and driver, all collected and reported automatically, with no data entry required.
- Easily adapt both new and existing vehicles to FleetShare's easy-to-use online and in-car wireless technology.
- Improve driver satisfaction by enabling them to make self-service online reservations 24 hours a day, change those reservations as needed and access their reserved vehicle through keyless entry—even after hours or at remote or unstaffed locations.
- Redeploy and scale quickly and efficiently based on your pools' changing needs by supplementing your fleet or motor pool as needed with FleetShare-provided vehicles in the make, model or size you require.

How can FleetShare solutions help you maximize fleet efficiency? Call us at 866-6LEASES today for more information.
